

Fulton County Prescription Drug Discount Program

County Residents Can Take Advantage Of Free Discount Cards To Save Money On Prescription Drugs

During the last six years since the introduction of the Fulton County's free prescription drug discount program, county residents filled 4,800 prescriptions with the cards at discounts averaging 26% or savings of \$11.84 per prescription. Using the card resulted in lower costs 76% of the time.

Fulton County launched the program to help consumers cope with the high price of prescription drugs. The county is making the free prescription drug discount cards available under a program sponsored by the National Association of Counties (NACo) that offers average savings off the retail price of commonly prescribed drugs.

Best of all, there is no cost to county taxpayers for NACo and Fulton County to make these money saving cards available to our residents.

The cards may be used by all county residents, regardless of age, income, or existing health coverage. A national network of more than 59,000 participating retail pharmacies also honors the Fulton County Rx card. Pet medicines are also eligible when they are dispensed from a participating pharmacy.

To print your free card, look up a participating pharmacy, or obtain a price estimate click on www.caremark.com/naco. If you would like a card mailed to you then please email finance@co.fulton.pa.us with your name and mailing address.

Using the NACo prescription discount card is easy, simply present it at a participating pharmacy. There is no enrollment form, no membership fee and no restrictions or limits on frequency of use. Cardholders and their family members may use the card any time their prescriptions are not covered by insurance.

The program is administered by Caremark Rx, Inc.
