The Commissioners spoke with Berley Souders, County Coroner regarding Federal COVID Vaccine Mandates and how it could impact the Fulton County Medical Center and the Community. The Commissioners reached out to the FCMC regarding this matter.

Chairman Ulsh asked for public comments. Sandra Barton spoke on her opinion of the vaccines, as she is a retired nurse. She also inquired if there was anything the Commissioners could do about the profanity ridden signs that are being displayed on some local houses. The Commissioners agreed they do not like the signs either but they don't have the official capacity to do anything about them. Commissioner Bunch added that he did discuss this matter with one constituent and the person decided to take down their sign. Cassidy Pittman inquired about the Intergovernmental Senate Committee that was listed on the Agenda and what they are asking to do. Commissioner Ulsh replied there would not be any type of action today on this subject as they are awaiting to receive and review Protocols on their request. However, he said they are requesting to examine the Dominion Voting Machines that were used in the 2020 Election. Cassidy also asked if there was any information received back from the State Review of these machines. Commissioners Ulsh and Shives indicated that there was a response that indicated that the ICX Machines used can be reutilized once prior 2020 data has been removed and reloaded. The Central Scan Machine used in the Assessment cannot be utilized.
